PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8803

SESSION NUMBER: 02

DATE OF SESSION: 24 MAY 88

DATE OF REPORT:

START: 1004

END: 1109

METHODOLOGY: CRV

VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: TO ACCESS THE TARGET STRUCTURE AT A FUTURE POINT IN TIME, AFTER CONSTRUCTION IS COMPLETED AND THE FACILITY IS OPERATIONAL SG1A

2. (S/NF/SK) VIEWER TASKING: *GIVEN SUPPLEMENTAL COORDINATE [REDACTED] ACCESS THE TARGET AND DESCRIBE ITS CONTENT, USE, AND FUNCTION.*

3. (S/NF/SK) COMMENTS: AS THE BUILDING APPEARS TO BE UNDER CONSTRUCTION, AT THIS TIME, IT IS NECESSARY TO LOOK AT IT IN THE FUTURE TO DETERMINE ITS CONTENT, USE, AND FUNCTION.

4. (S/NF/SK) EVALUATION: VIEWER 018 DESCRIBES A PORTION OF THIS STRUCTURE AS BEING LOWER THAN GROUND LEVEL (VIEWER 003, 16 MAY 88, ALSO DESCRIBES AN UNDERGROUND COMPONENT OF THIS TARGET). THE VIEWER FOUND A LARGE, MASSIVE "SOMETHING" LOCATED WITHIN A LARGE OPEN INTERIOR AREA (AOL - LIKE A LOCOMOTIVE). OVERALL PERCEPTIONS ARE OF A RESEARCH OR TESTING LABORATORY

HANDLE VIA SKEET CHANNELS ONLY

## memorandum

DATE: 27 May, 1988

REPLY TO  
ATTN OF: DT-SSUBJECT: SESSION SUMMARY (C/SS)  
SG1J

TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018  
Session date: 24 MAY 88  
Start time: 1004  
End time: 1109  
Mode of operation: CRV  
PI: Cold  
AV: None

2. (S-SS) Cuing: 6 digit encrypted coordinates:

SG1A [REDACTED]

3. (S-SS) Results:

- a. The site was perceived as a structure which has something "wrong" with its proportions. The exterior of the structure seems to have at least one portion with columns (see sketch, page 5). The structure, itself, feels (tactile) part natural and part manmade. There are two types of manmade portions: one of very high quality (AOL: also seems to be older, or "more original") and other portions which are very flimsy and cheap (AOL: feel like newer "add-ons"). There is also at least one part of the immediate exterior of the structure open to and slightly lower than ground level.
- b. The interior is neat, clean and orderly. There are numerous, generally unassociated (with one another) people. Because of the nature of the structure, these people tend to "congregate". While there is an overall drone of talking noise, the place gives the quiet impression of a large, open space.
- c. There is a large, massive "something" sitting directly on the floor of this large, open interior space (see sketch, page 12). It has uneven tops and sides, and drove the AOL of "locomotive". People come here to view it; not as in a museum, but as in a research or testing laboratory.

VIEWER OIB; AT PRESENT, THE VIEWER DESCRIBES A LARGE, TALL, EMPTY BUILDING THAT APPEARS TO BE UNDERCONSTRUCTION. MOVING TO A POINT IN THE FUTURE WHEN THE BUILDING IS COMPLETED AND OCCUPIED, THE VIEWER IS ATTRACTED TO A LARGE, MASSIVE "SOMETHING" THAT IS LOCATED WITHIN A LARGE, OPEN INTERIOR AREA. ALTHOUGH THE VIEWER WAS UNABLE TO ACQUIRE ANY FURTHER INFORMATION CONCERNING THIS OBJECT HE STATED THAT IT REMINDED HIM OF LOCOMOTIVE. THE VIEWER PERCEIVED THE FUNCTION/PURPOSE OF THIS TARGET AS A RESEARCH OR TESTING LABORATORY

S2 D M E T , on als.  
(people)

Interim Summary: Site is a structure with groups of people. The people are not uniformly distributed throughout the structure, but seem to "congregate" in certain areas. People seem to be unrelated to one another. While there ~~are~~ <sup>is</sup> lots of "talking" noise, the place ~~has~~ <sup>gives</sup> an overall quiet impression. The structure, itself, seems to be made of natural material, to which manmade material has been added and/or which has been worked. The added manmade material is of good quality in some places, but very flimsy in others.

Block 1049.

Block 1053

Summary. (Cont'd) Structure has an overall neat, clean and orderly appearance. Good impressions of lots of shiny metal (columns & walls).
